

***My Moon*** BY OLAREWAJU BLESSING

My dearest moon  
I look up to you in the sky  
I see your perfect round figure  
Your beauty so reflective and unhindered

You shine every time with glamour  
Appearing always in glory  
Penetrating the clouds  
Dominating the sky with pride

When I try to reach you  
You seem to be too far away  
Too secured to embrace  
Too flawless for my touch

When I start to go down  
You begin to show up  
You shine your light to me  
Brighten me with your love

I want to come to you  
To feel your touch  
To explore inside you  
To travel with you  
To smile and glow with you  
My dearest moon
